

RTC Adapter

Different lifting tools for the same mini lift with quick tool change.

"Fork solutions for efficient handling with **high safety** and optimal flexibility"

Specifications

Category	Tool	
Handling Needs	Lifting items over 15 kg	
Drive	Manual	
RTC adapter	Possible	
Material	Stainless Steel	
IP Protection	65	
Maximum Lifting Capacity <small>Limited according to the particular load type and weight that the lifter designed to handle</small>	150 Lines	130 kg
	300 Lines	250 kg
	500 Lines	450 kg
Compatible Lifting Tools	Electric Leveling Unit (ELU)	
	Vertikal justeringsenhet (VAU)	
	Lateral Adjustment Unit (LAU)	
	Swing Unit (SU)	

CUSTOMIZED All forks can be customized to specific length needs between 200 - 1500 mm.

Fork Solutions

Our flexible fork solutions ensure efficient and safe handling of both boxes and rolls. The fork with tilt support (FTS) is ideal for stable lifting of boxes with edges, while the fork with notches (FN) makes it easy to handle and lift rolls and axles.

Also, check out our adjustable fork (AF) for even greater customization for different dimensions.

The fork with tilt support (FTS) is perfect for handling boxes with edges. It grips under the edge of the box while ensuring that the load does not tip during lifting and transport. It's ideal for heavy and fragile materials where stability is crucial.

The fork with notches (FN) is the perfect tool for lifting rolls with axles. Two notches at the front of the fork make it easy to collect and manage axles, allowing for simple and safe lifting of rolls. A plastic insert protects the axle from wear, and the dimensions can be precisely adjusted to your roll sizes.

After lifting, the roll can easily be placed in the machine holder, ready for use – a quick, simple, and safe solution that boosts productivity.

Also, see our adjustable fork (AF), which makes it easy to adjust the distance between the tines. This is a good solution when, for example, boxes of different dimensions need to be lifted.

Features

- Easy to customize. Dimensions can be changed as needed.
- Robust constructions for industrial use. The completely stainless steel constructions are built to last and to operate in demanding industrial environments.
- Available in hygienic versions for use in clean rooms and the food industry.

Fork with Tilt Support (FTS)	150 Lines	300/500 Lines
Lifter compatibility	All	All
Fork length	600 mm	800 mm
Fork width	676 mm	776 mm
Fork height	105 mm	105 mm
Fork height	500 mm	600 mm
Weight	17 kg	19 kg
Dimensions	L	660 mm
	W	676 mm
	H	300 mm

Fork with Notches (FN)	150 Lines	300/500 Lines
Lifter compatibility	All	All
Notch diameter		60 mm
Fork length	600 mm	800 mm
Fork width	580 mm	720 mm
Fork height	60 mm	60 mm
Fork arm distance	500 mm	600 mm
Weight	3,5 kg	11 kg
Dimensions	L	660 mm
	W	580 mm
	H	300 mm
